Re: LG&E Rate Request

2008-00252

PSC,

In regard to the request for rate increase by LG&E. I oppose any rate increase because LG&E already has a rate increase tied to the cost of coal and other fuels, they received over 11 million for property in Louisville and with the costs of Health Insurance, Food, prescriptions, Gasoline, State and Local taxes, increases in sewer rate, increased in Water rates and recent increases in property valuation the government has already put people in a financial bind. If LG&E is so strapped for money that they need a rate increase let them start by turning off the light in their building instead of letting them burn all night and stop sponsoring events such as Light up Louisville and Thunder over Louisville.

Thank you,

Norman L. Adwell
